V INTERNATIONAL CONFERENCE LATIN AMERICA, AFRICA, EUROPE AND THE CARIBBEAN (ALEC)

COUPLES AND FAMILIES IN THE WORLD IN THE TWENTY-FIRST CENTURY

ITSON Ciudad Obregón (Sonora, Mexico)

14th and 15th November, 2024

Hybrid modality: face-to-face and virtual

In line with the objectives of the 2030 Agenda, the academics and researchers of the ALEC International Research Group in connection with civil society have been working for many years to develop initiatives that can **promote and encourage the defense of the rights of the most disadvantaged in order to build a reality based on a culture of peace.**

In 2023, the choice of the theme of the X International Colloquium of the Sonora Technological Institute (ITSON) of Ciudad Obregon (Sonora, Mexico) in collaboration with the ALEC International Research Group (<https://www.unilim.fr/alec/>) and OCUPA International (www.ocupainternacional.org) "Family, community and government: reflections in the context of human rights" highlighted one of the most important streams of the work and actions of ALEC Research Group and OCUPA International in vulnerable populations.

It is therefore quite natural that the V° International Congress of the ALEC Research Group *Couples and Families in the World in the 21st Century* will reinforce this orientation by creating other spaces. These will be focused on multicultural and intercontinental dialogue and exchange, as well as a number of multidisciplinary topics.

We also invite all those who wish to reflect, exchange and share their observations, experiences, teachings... on one of the themes that are present in our societies in the twenty-first century. They can send us their proposals on one of the following subjects:
